

SHELVING DEPOT

PRODUCT
**LONGSPAN RM
SERIES 80**

Creating Space, Saving Time.

Strong, stable
and secure,
this NZ made
system is very
reliable &
durable.

Adaptable, strong and offering great value-for-money, the Shelving Depot Longspan Series 80 could be just the shelving solution you've been seeking for your warehouse, workshop or office.

The Longspan RM Series 80 is a New Zealand made shelving system that is knockdown, modular, versatile, extendable and available in both shortspan and longspan. The bays can be combined in the same rack for the efficient storage of a wide range of different items using the convenient bolt free lock-in system. When the support beams have been located and locked-in, they remain in position improving safety for your staff accessing stock or moving about in the aisles.

Being strong, stable and secure makes it a great choice for in retail, warehouse and office applications.
